

Nobody should have to wait for money when sick!

Sign the joint appeal for sick pay

We who have signed this petition find it undignified that many workers in Norway must wait for several weeks, and sometimes months, to receive the sick pay they are entitled to from NAV.

No one gets any better from worrying about their finances. This can easily be avoided by having the employer advance the money they are due, and then have it refunded by NAV afterwards.

Advance payment of sick pay is one of the 2,600 demands that were submitted by Fellesforbundet members to the collective bargaining agreement. Now it is one of the main demands.

Our demand to employers: Introduce advance payment of sick pay now!
